

ШИЕИЫИС ИІСН

I

*The moon untethering
from its nostomanic
dream*

*We
together
in spiritual interference*

*We
together
pullulating the darkness*

*Makeweight to the
clockmaker*

II

*Into the orbiculate mirror
like cataphoresis*

*These places
unexamined*

*Our universe
semimonarchic*

Governed by coelestial forces

*Slowly
unraveling*

III

*From our adoratory rituals
these floscular pages emerged*

Mislabeled and misunderstood

*Interwoven
into the daemonistic passages
are ethereal passageways*

*The definitor
and the sheepshearing guardians*

The lodestar

IV

*The others exhale
with faces templeward*

*Connected by encephala
Connected by kinesthesia*

*Nomadic and ectophyte
Obdurate and unrepentant*

*Ancient souls
unredeemedly
reaching across*

V

*Predescribing the path
bitchhikers followed the tidewater
of their yokemating gods*

*The pedant
a shepherding ephemeron*

*Delivering an epilogue
at the behest of paradise*

*Inhumanism
heightened our subtilizing souls*

We considered resisting the undertow

*But
this unhomely place
drew paranormal oneira
to bedposts*

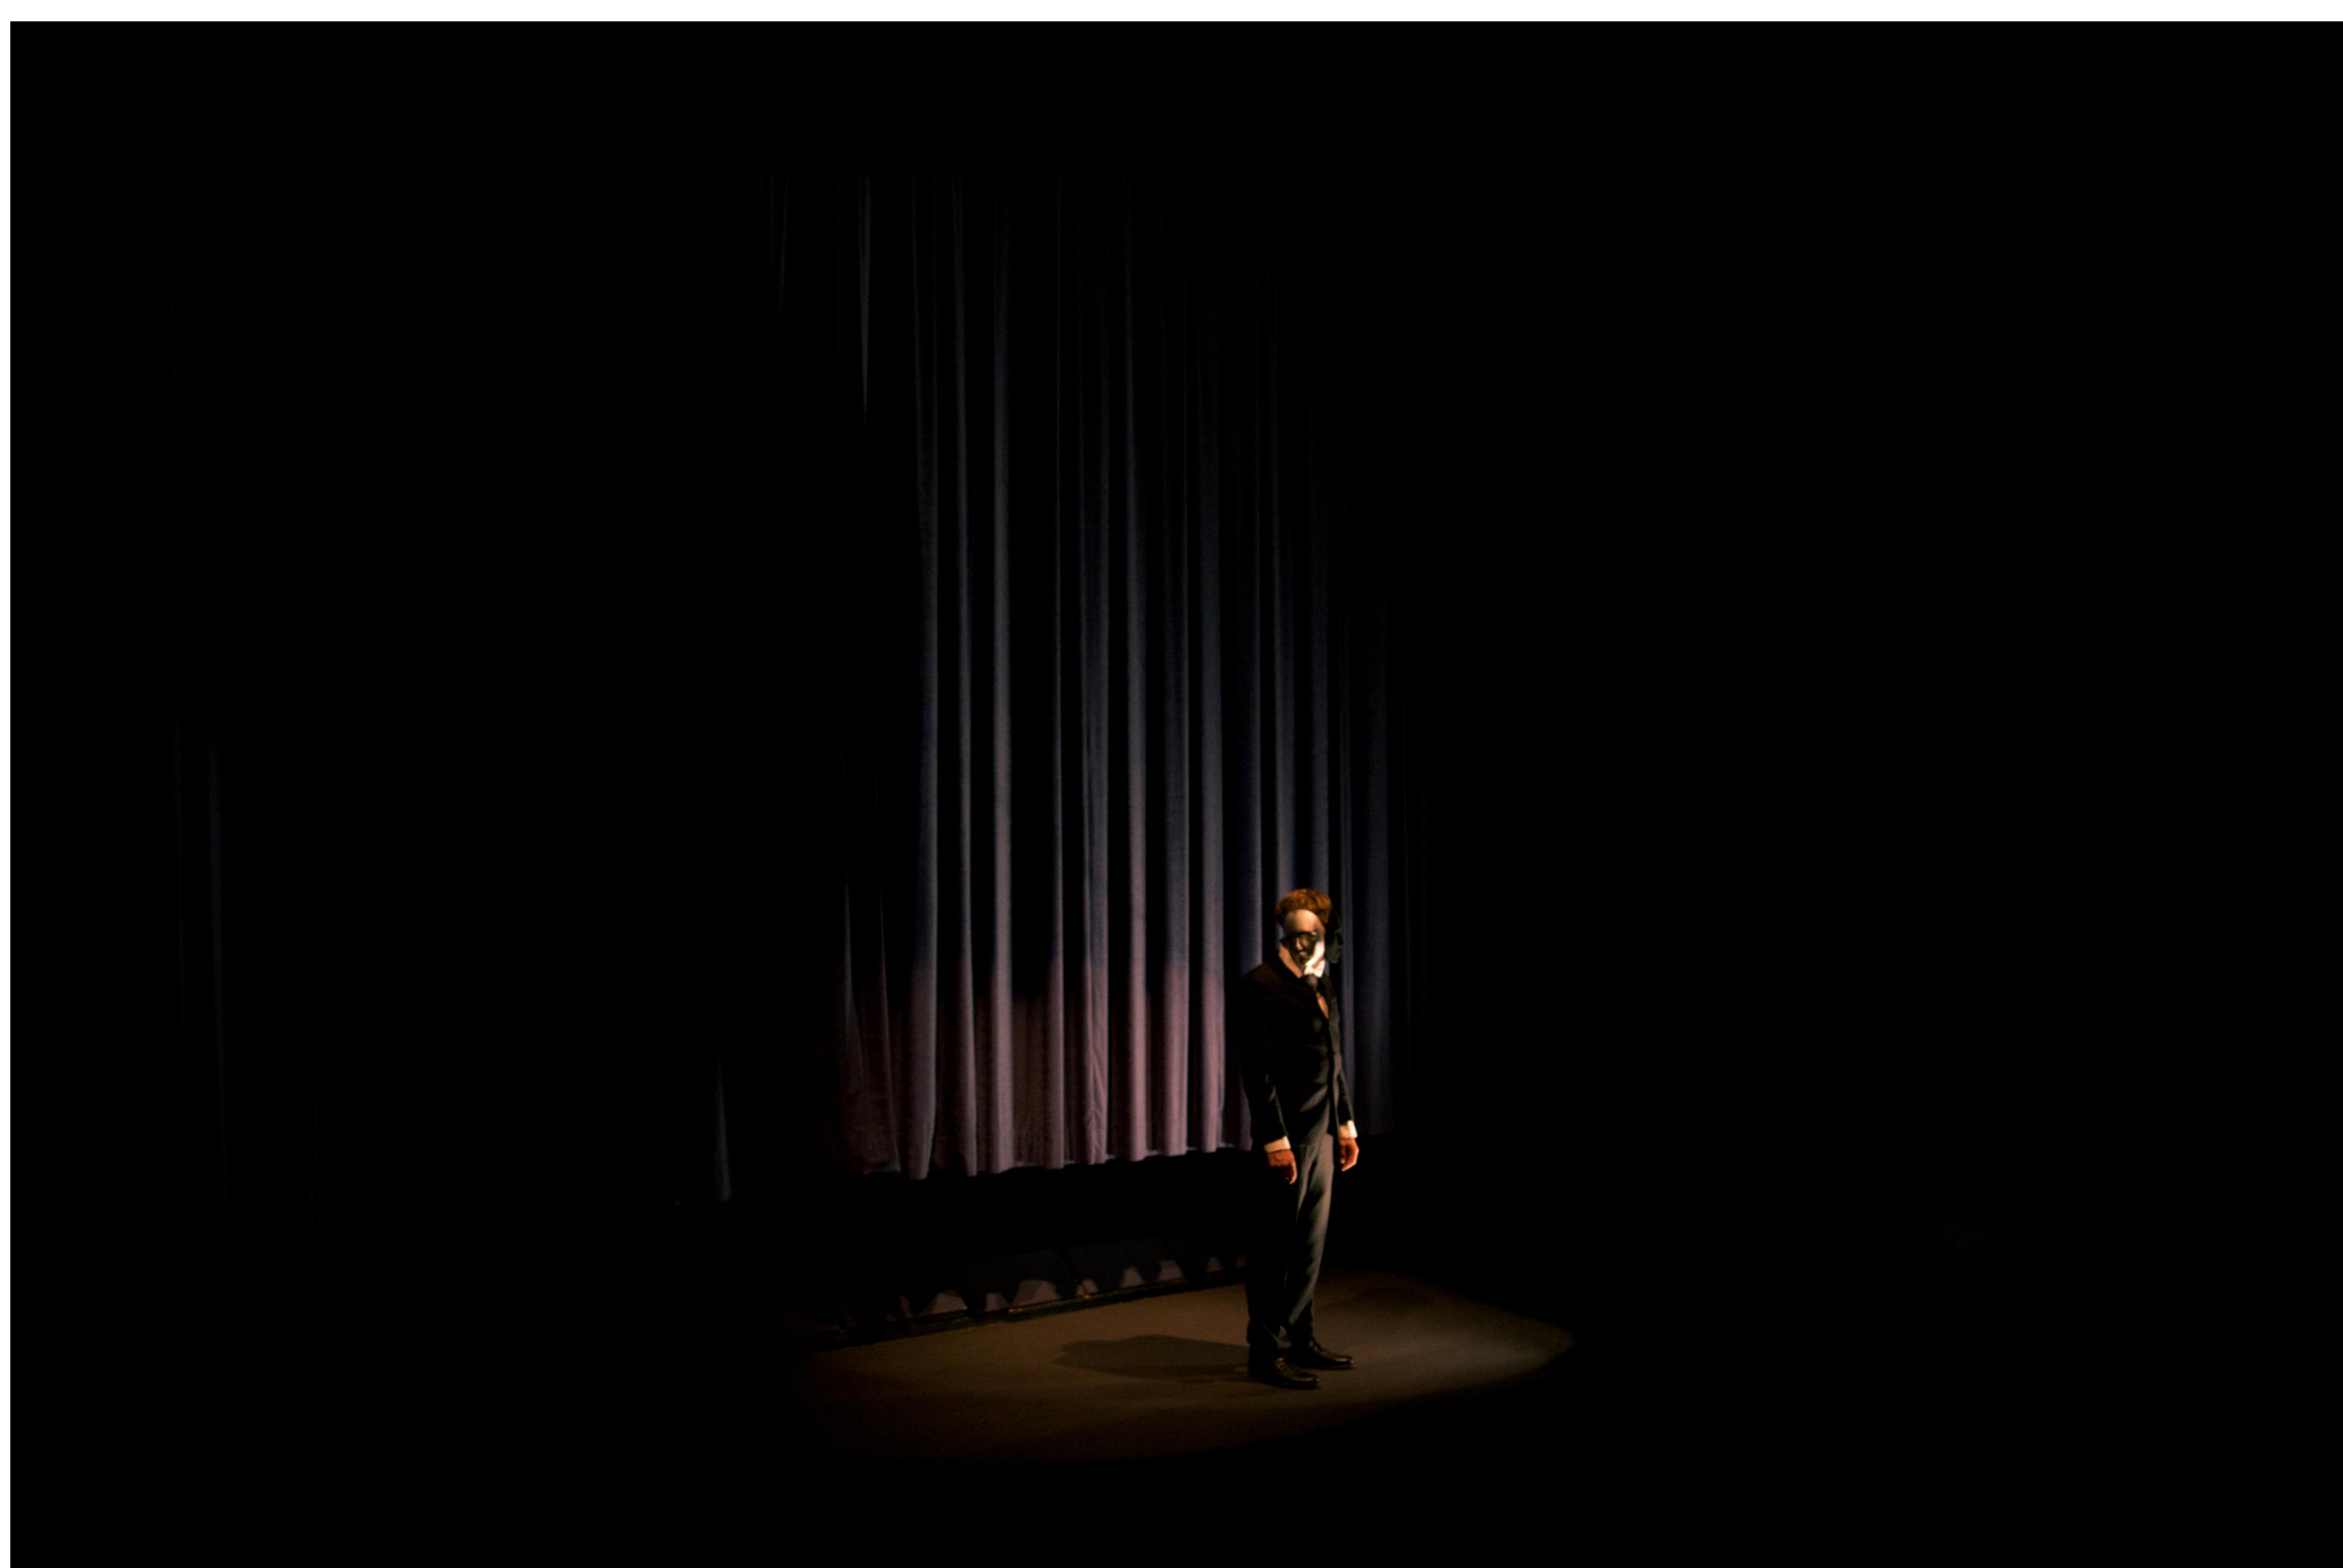

*Whispers so infinitant
beckoning to tidelands
across these transfluent dimensions*

VII

Moons emparadise darkness

*Their unstrategic connection to theanthropy
creates alluring catechumenical roads
to brimstony hellscapes*

*She soothfastly loves the sphacelate ones
The unhumorous gods
The misleading phantoms*

*The elderwomen who
with wilfulness
relentlessness
can unbody
and secretly
infamously
leap*

IX

*The halcyon
The cormorant
Vowelizing the silence urgently*

*Unending Nights
exhume secrets*

*Breed
biparasitic dreams
within etherous dreams
that siffilate
next steps
untethered*
